

Royals v. Hire Right Solutions Inc.
Civil Action No. 3:09cv625;

I strongly disagree and object
with the amount of the settlement.

They let people know about my history
without my consent, in my point of
view is a grave crime. They could
have gave it to some one who could
have stolen my identity. Now people
know about me which now I cant do
anything about. People who I dont
wish to know about me that I never
would have consented to. So yes, I
strongly object to such a small settlement
for such a big crime. Sincerely
submitted:

P.S. Who know's how many companies, how many times my name has went out. I feel as though I have been violated, striped of my constitutional rights.
